

Adhesive Solutions for Turf Manufacturers

Innovative Adhesive Products That Meet The Challenge

Stabond offers industrial grade adhesives that are specifically formulated for the synthetic turf industry. The technologically advanced products feature zero VOC, no harmful fillers, and aggressively bond to concrete, asphalt, seam tape, fiberglass, and many other substrates.

Stabond products deliver superior adhesion for indoors or outdoors turf applications in extreme conditions and high traffic areas and are the professional's choice for full glue downs, seams, and rooftop applications.

- ▶ SCAQMD Certified - Zero VOCs
- ▶ Manufactured to latest revision of ISO 9001/AS9100
- ▶ Eco-friendly
- ▶ All products produced in the United States
- ▶ Products available in cartridges, quarts, gallons, and 5-gallon pails
- ▶ Custom formulations and packaging available

PRODUCT EXAMPLES	Application Method	Viscosity (cps)	Solid Content	Peel Strength (pli)
STABOND U-510X	trowel, extrusion	54,000	100%	8
STABOND U-410D	trowel, extrusion	44,000	71%	26
STABOND U-283C	brush, spray	9,000	100%	N/A
